

21st November, 2024

Dear parent/guardian,

Kurnai College is looking forward to another great year of teaching and learning and would like to advise you of Kurnai College's voluntary financial contribution arrangements for 2025.

Schools provide students with free instruction to fulfil the standard Victorian curriculum and all contributions made by parents

Bring Bring Your Own Device Strategy (BYOD)

In 2014 Kurnai College implemented a Bring Your Own Device (BYOD) policy, which means that all students should have their own laptop which they take to all classes charged and ready to use.

Bring Your Own Device (BYOD) is a strategy that enhances a flexible learning environment, allowing students to leverage their personal technology for educational purposes. At Kurnai College, implementing BYOD not only empowers students by integrating technology they are familiar with into their learning, but also prepares them for the tech-driven world they will live in.
